Species Election

This application encompasses two different species of the inventive subject matter as shown in Figures 4 and 5 respectively. Pursuant to 35 USC § 121, applicant is required for a complete response to (1) elect a single disclosed species and (2) list all claims readable on the elected species including any claims subsequently added (MPEP 809.02(a)).

Claim 23 appears to be generic.

Applicant is further advised that a mere argument alleging that a generic claim is allowable will not satisfy a species election requirement. For a complete response, applicant must elect a single species and list the claims readable on that species as set forth above. (In this particular instance, the undersigned was unable to make contact with applicant's attorney for the purposes of offering a telephone election.)
